The Secret

of the universal success of Brown's Iron Bitters is simply this: It is the best iron preparation ever made; is compounded on thoroughly scientific, chemical and medicinal principles, and does just what is claimed for it—no more and no less.

By thorough and rapid assimilation with the blood, it reaches every part of the system, healing, purifying and strengthening. Commencing at the foundation it builds up and restores lost health in no other way can lasting benefit be obtained.

Dr. D. C. Mack, Chicago, Nov. 7. I have been a great sufferer from a very weak stomach, heartburn, and dyspepsia in its worst form. Nearly everything I ate gave me distress, and I could eat but little. I have tried everything recommended, have taken the prescriptions of a dozen physicians, but got no relief until I took Brown's Iron Bitters. I feel none of the old troubles, and am a new man. I am getting much stronger, and feel first-rate. I am a railroad engineer, and now make my trips regularly. I can not say too much in praise of your wonderful medicine. D. C. Mack.

BROWN'S IRON BITTERS does not contain whiskey or alcohol, and will not blacken the teeth, or cause headache and constipation. It will cure dyspepsia, indigestion, heartburn, sleeplessness, dizziness, nervous debility, weakness, &c.

Use only Brown's Iron Bitters made by Brown Chemical Co., Baltimore. Crossed red lines and trade-mark on wrapper.

Swindlers and Their Victims—How Careless People Suffer in Health and Pocket.

Every streak of sunshine creates a shadow, and behind every truth crouches its corresponding lie. Whosoever has not been in some way fooled and robbed by swindlers and their work has had better luck in life than most mortals. In fact the best witnesses to the value of a given article are the counterfeits and imitations which seek to share its success without possessing a fraction of its merit. Hence it goes without saying that

RENSON'S CAPSINE POROUS PLASTER.

Are pursued by a host of miserable and worthless imitations, eager to appropriate what they can of the fruits of its victories. These leeches commonly take the form of a cheap plaster.

Now, these worthless and harmless plasters would be detected in a minute if people were careful in reading and remembering names. But most persons merely glance at them, understand partially and forget instantly. What result? This: Desiring to buy RENSON'S CAPSINE POROUS PLASTER, their own carelessness enables some storekeeper or druggist, who cares more for five or ten cents additional profit than for the sweets of an approving conscience, to roll them up instead some cheap imitation with a similar name. The deceit often works, while the fraudulent plasters never do.

Don't permit yourself to be thus victimized for lack of a moment's care. RENSON'S CAPSINE POROUS PLASTER have stood the test of science and experience and are the product of both. Examine the article and satisfy yourself that the word CAPSINE is written in the seal, and Johnson, Pharmaceutical Chemist, New York. Highest awards at International Expositions.

IT PRESERVES YOUR BUTTER COLD, sweet and fresh, as no other refrigerator can do. This is guaranteed. It is a first long established by all connoisseurs of butter, that any vessel, cabinet or refrigerator, made of wood or any other substance carrying with it an odor, or a strong flavor, or any kind of meat, or any substance carrying a scent, becomes so tainted as to be unfit for table use, and even for culinary purposes. People may complain of poor butter, but the fault lies in the manner of keeping it.

The company spoken of below are now looking at property in Nevada, with a view to purchase, and may run their road down this way. The Boston Herald, in its financial article, says: "Boston capital has been so much, if not more, than the capital of any other people in building up and developing the Far West, and, in addition to previous ventures, now comes in an Oregon and Boston enterprise, controlled in this city. The nominal capital is \$4,000,000, in \$100 shares. Several hundred thousand dollars have already been subscribed in New England, at \$5 for the bonds, and a stock bonus of the same amount at par."

The objects of the corporation are to purchase, improve and sell real estate property in Oregon, California, Washington and Idaho Territories, and British Columbia; to construct and maintain dry docks, elevators, depot buildings, factories, dwelling-houses, highways and railroads, and to do a general steamboat, railroad and commercial business. Its railroads are in part defined by the building of a road from Coos Bay to the eastern boundary in Oregon, by way of Roseburg. Should the road be built, it is not improbable that it would connect with the Union Pacific. The Oregon Short Line Company will give its earliest attention to the Coos Bay region, particularly to the vast forests of white cedar there. It will also develop coal mines on the property which it controls. The parties identified with this undertaking are well-known capitalists, whose names it is not desired to have published.

JUSTICE IN INDIA.

The following curious legal decision, which is almost as absurd as some that have emanated from the bench in this country, is recorded on the archives of a Court in India: "Four men, partners in business, bought some cotton bales. That the rats might not destroy the cotton, the men bought a cat. They agreed that each of the four should own a particular leg of the cat; and each adorned with beads and other ornaments the leg thus apportioned to him. The cat, by an accident, injured one of its legs. The owner of the member wound about it a rag soaked in oil. The cat going too near the fire set the rag on fire, and being in great pain, rushed in among the cotton bales where she was accustomed to hunt rats. The cotton, thereby, took fire and was burned up. It was a total loss. The three other partners brought a suit to recover the value of the cotton, against the fourth partner who owned the particular leg of the cat. The judge examined the case and decided thus: 'The leg that had the oil rag on it was hurt; the cat could not use that leg; in fact, it held up that leg, and ran with the other three legs. The three unhurt legs, therefore, carried the fire to the cotton, and are alone culpable. The injured leg is not to be blamed. The three partners who owned the three legs with which the cat ran to the cotton will pay the whole value of the bales to the partner who was the proprietor of the injured leg.'"

EDITORIAL NOTES.

St. Henry Thompson, the London surgeon, recognizes in fish a combination of elements of food that the human body requires in almost every phase of life, more especially by those who follow sedentary employment. To women he considers fish to be an invaluable article of diet, but he cautions as a complete fallacy the notion that fish-eating increases the brain power. "The only action fish had on the brain was to put man's body into proper relations with the work he had to do."

The protective policy is undoubtedly believed in by the majority of the people in this Republic, and the Republican party, in particular, is wedded to it, and have never enter-

tained any idea of seeking a divorce. The New York Tribune thus speaks of this union and its results to the country: "The Republican party framed and enacted, in spite of the Democratic opposition, all the tariffs for the protection of home industry that have been adopted since 1880. Under those tariffs the industries of the country have grown marvelously, and it has attained a prosperity and power which was scarcely dreamed of thirty years ago."

Queen Victoria will stay near John Brown's grave and continue to decorate it, and the family are very much annoyed thereat. The Prince of Teck has been sold out at Sheriff's sale, though it didn't pass by that name, and the Prince of Wales loaned him all the money he could spare, and they have packed the Prince of Wales off to a little German watering place, where he can live cheaply, and be out of the way of his creditors, still unsatisfied. Well, the royal troubles seem very much like common troubles after all, says the New York Graphic.

The Savannah News calls attention to the fact that what the South needs now is to give attention to education. The progress of a correct educational system, it remarks, has been proven by the North to be slow, and the South cannot expect that it will be rapid, but it should be thorough in the best directions. It is very gratifying to note that the South is awaking to the full importance of this subject.

There are not wanting indications that more people will leave the United States to settle in British North America than will cross the southern border to become citizens of Mexico. The Dominion received an accession of 193,000 immigrants last year, and of these more than 13,000 are from the United States.

The Democrats are settling down to Cassidy for the Senate and Denais for Congress.

EASTERN DISPATCHES.

(PRESS DISPATCHES TO THE GAZETTE.)

The Killing of the Reverend Sewell.

GALVESTON, August 15. At the preliminary trial of Denman, for the killing of the Rev. Sewell on the 14th instant, A. Heis, the only witness for the prosecution, testified that he was walking with Sewell, and conversing about the Spanish edition of the Testament, when Denman rushed out of the drug store and fired, Sewell falling at the second shot, exclaiming, "Don't shoot!" The assailant fired twice again before he was disarmed. For the defense, F. C. Wilkinson's testimony showed that Sewell had caused the following anonymous letter to be written to Denman: "Look out for a preacher who has black hair, brown beard and an impediment in his speech; if he has not already seduced your wife he intends to do so, judging by what has been seen and heard by a number of your flock. If you have any doubts on the subject, just conceal yourself, or come in when not expected. I take this method to save you the mortification of being told of this fact to your face. You will find me out to be a true friend."

The person referred to in this letter was the Rev. Blair, a Methodist minister of Luling. The witness, Addison, swore that under the deceased was found a self-cocking five-shooter, attached by an elastic to the right arm, in the inside of his coat sleeve, so it could be easily, by a downward motion, thrown into Sewell's hand. Another witness testified that when Sewell was attacked, he threw down his hand, and the pistol came out. Denman ejaculated, "You have tried to disgrace my wife," and fired. The defendant's bail was fixed at \$5,000. So universal is the sympathy for him, a bond of \$10,000 could easily have been secured.

They Think to Avoid Arrest by Going into a Territory.

KANSAS CITY, Mo., August 15. Slade and party have gone to Independence to look at the training ground selected for the Maori and which is located at the farm of H. C. Young, half a mile north of Independence. This house was formerly the residence of H. M. Vail of Star Route notoriety. Slade expressed himself as very well pleased with his quarters, and at once took up his abode on the farm, where he will remain until the 11th of September, the day of the fight. Madden and Mitchell spent the day in the city. They have not as yet looked at the ground selected for them, but probably will to-morrow. The general agreement as to the locality of the fight is that it shall come off within 200 miles of Kansas City. One of the

parties to the affair acknowledges that Vinita, one of the most flourishing towns in the Indian Territory, has been definitely settled upon as the scene of the encounter.

There is no law against prize fights in the Territory. As the Federal law only takes cognizance of assaults with deadly weapons, it is believed interference on the part of the United States authorities will be avoided. There is a fair ground in Vinita, and an amphitheater with seating capacity for 1,000 persons, and two railways run through the town. It is believed a much larger crowd of people will be present than ever before gathered to witness a prize fight, and the projectors of the affair, as well as the participating pugilists, anticipate making a mint of money out of the enterprise.

They Will Arrest Him.

CHICAGO, August 15. Rhodes, the Olean man, who has promised to swim the Niagara whirlpool rapids, arrived at the falls yesterday afternoon. Interest in the subject remains at fever heat ever since the death of Captain Webb, and Rhodes was greeted on all sides with the stares of the curious crowd. Soon after his arrival he was handed a letter from the Canadian magistrates, which cautioned him from entering the rapids from the Canadian side, saying he would be arrested the moment he attempted it. Rhodes said he was not to be frightened off and would perform the feat in due time. He has not set a date for the swimming, saying only that it would be within a fortnight. The device which is to be used for buoying and protecting his body was completed some weeks ago.

A Savage Attack on John Mackay.

NEW YORK, August 17. The Wall Street Stock-Holder makes a savage onslaught on Mackay, printing a list of his Nevada properties. It says: "Here is over \$4,000,000 of original capital, augmented by assessments to \$32,000,000, and over which this wonderful Mackay has manipulated down to \$5,000,000, the present market value." It predicts that he will in the same way treat the Postal Telegraph Company.

Crime in Georgia.

SAVANNAH, Ga., Aug. 17. Reuben Robinson, the last of the trio engaged in the Lynford tragedy in Miller county, who lynched a woman, has been discharged for lack of evidence. Eight men were arrested in connection with the recent outrages in Banks county.

WESTERN DISPATCHES.

(PRESS DISPATCHES TO THE GAZETTE.)

SAN FRANCISCO NEWS.

SAN FRANCISCO, August 15.

THEY COMPLAIN OF IRREGULARITY. The only disturbing element so far in the Conclave arrangements is the irregularity and lateness of the arrival of trains. The reception committee are sometimes kept waiting for hours at the ferry, very much to their annoyance and discontent. The event of to-day will be the arrival of the St. Bernard Commandery of Chicago, who will be received with special honors by the Grand Commandery of California. The reason of this marked attention to the Bernards is, that it was that Commandery who met and greeted the Commanderies from the Pacific coast to the Chicago Conclave. Orders have been issued from the several Commanderies of the city, to report in full dress uniform, and proceed in a body at 4:30 p. m., to receive the St. Bernard on their arrival by the overland train this evening. The number of the Commanderies to arrive to-day is the largest of any one day yet. The Nevada Commandery has just passed; their appearance was most favorably commented on, the unusually great stature of the Knights being a subject of general remark. The Ancelon Club of St. Louis will arrive with the St. Bernards, unless the members decide to stop over at Truckee for the purpose of visiting Lake Tahoe. Platt's Hall, the headquarters of the hospitality of the California Commandery, was opened this morning to visiting Knights. It will be a continuous feast during all next week.

The preliminary examination of the hoodlums charged with the outrages on Mrs. Mary Eberhardt, was held with closed doors. They were held on a charge of rape, with bail at \$5,000. In the case of those charged with the outrages on Mrs. Wagner, the bail was fixed at \$10,000.

A Burned Bridge Repaired.

MARYSVILLE, Aug. 17. The temporary railroad bridge, replacing the one burned last week, was completed this morning, and the trains are running as usual.

—Fifty deaths by cholera at Alexandria yesterday.

—A negro was hanged by a mob in Texas yesterday for an attempt to commit a rape.

—Early this morning the concentrating mill attached to the Little Elton mine in Leadville, was burned. Estimated loss, \$15,000; fully insured.

FOREIGN DISPATCHES.

(PRESS DISPATCHES TO THE GAZETTE.)

Me Favors Emigration.

LONDON, August 15. Forster, formerly Chief Secretary for Ireland, in a speech at Devonport strongly urged the necessity of emigration for Ireland. He said there are thousands of hard-working farmers who longed to go to a country where they could live without being terrorized.

Chicago hams and bacon, Winslow's Portland cement, glass, crockery and tinware, farming utensils, and everything else ever found in a first-class grocery store, can be had at A. Lindley & Co's at way down prices.

This is the time in the week when every man and ambitious youth who is struggling with the first symptoms of a mustache should interview a first class barber, and Johnny Belz on Commercial Row, is just the man to make the transformation.

An Evident Suicide.

The Red Bluff Cause says. The Misses Camden and some gentlemen friends took a stroll to the falls on Swift creek, three miles north of the Tower House, last Saturday, and while there discovered the remains of a man. Upon further investigation it was discovered that the remains were those of an English artist named E. F. H. Foster, aged about 40 years.

He was the son of a well-to-do family, and had been in the Tower house several weeks ago, became indebted to the landlord, and hypothesized the pictures as security for the debt. It is supposed that in a fit of despondency because he could not liquidate the claim, he threw himself over the bluff into the stream below and was drowned.

Supposed Murderers Arrested.

A Modesto, Cal., dispatch says: Sheriff Fulkert has arrived with John Mian and Rasket, his accomplice, the supposed murderers of Alfred Case. They are now safely lodged in jail. Had they come last night as was expected they would surely have been lynched, as there were over 100 ready and willing hands at the depot waiting with ropes ready to hang them. There is strong talk of lynching, and our officers will be on the lookout tonight!

Nevadans in Utah.

Judge T. D. Edwards of Carson, who recently returned from his Denver and Salt Lake trip, reports having met many former residents of Nevada in the city of polygamists. He was in the city on the day of the recent election, and says wagon loads of fresh-looking Mormon women were brought in to vote. He says that Judge Goodwin, the stalwart editor of the Salt Lake Tribune, is looking and feeling better than for years.

Struck by Lightning.

The Pioche Record says: A sheepherder was struck by lightning and severely injured while tending his flock on the mountains in the neighborhood of Paigutah, Utah, one day last week. The Beaver County Record says the herder was knocked senseless, in which state he remained for several hours, the clothing ripped off his body, one side of which was terribly scorched. His injuries, though very severe, were not fatal.

A Sad Termination of a Pleasure Trip.

One of the Mrs. Dolleys, who with their husbands were recently noticed by the GAZETTE as having arrived from Pennsylvania on their way to the Conclave, stopped at a hotel in Reno to visit a brother at Johnstown, Plumas county, and died there a day or two ago, and the rest of the party will soon return to the East.

Good Templars.

Rapier Commandery of Indianapolis went west on a special at 8 o'clock this morning. They stopped here for breakfast and drill. They are the favorite with many in the competitive drill. They took second prize at Cleveland six years ago and first prize at Chicago three years ago.

FORAKER AND HOADLEY.

A Keen Politician's Estimate of the Two Candidates for Governor of Ohio.

J. H. Woodward, who has contributed so much to the success of the Enquirer, the leading Democratic paper in Ohio, sat on a fire plug near the postoffice last night, when an Indianapolis Journal man said to him:

"You have your hand into Ohio politics; how does the campaign look to you?"

"A sort of a jug-handle affair, at present—Foraker is the jug."

"Much is said about the superior qualities of Hoadley as a debater; what do you think of the relative merits of the two men?"

"I can best answer by a mechanical illustration. You have seen descriptions of the recently-invented cast-iron cat—a machine full of springs, claws and a lot of buzz-saws, the whole looking like an infuriated cat. This thing is wound up and set on the back roof at night, and it at once begins a series of growls, which soon attracts the living Thomas cat, and after the proper amount of joint debating, the live cat bounds upon the iron one; the jar sets off the springs, which grasp the cat and hold him until the saw and grinding machinery reduces him to sausage. Foraker is the cast-iron cat-trap, and Hoadley is the other cat, full of vim and snap, which is hunting for the trap. When he comes out of this political sausage-mill into which he has flung himself, he will never hunt for another political cast-iron cat."

"Good illustration; but certainly Hoadley is a brainy man."

"Certainly he is brainy. He wears a number seven and a half hat, but his chief misfortune is that he wears a No. 28 mouth. His mouth is three times the size of his brain."

"What is McLean kicking at Hoadley about?"

"Didn't know that he was. McLean and I are not on intimate terms—have nothing but business relations with him. I know why I would kick if I owned the Enquirer. After Hoadley decided to be a candidate he helped to establish a competing Democratic paper, which was to be his own organ, and it was given out in advance of the convention that Hoadley's victory would be the victory of the News-Journal over the Enquirer. That course of action would make me kick. But it ain't my fight; let the dance go on." And the political disturber was out of sight in the darkness.

LEADVILLE MINES.

A Large Pay-Roll and Good Mines Yet.

The Leadville Register-Call says: The Leadville mines employ 3,250 men, and the pay-roll aggregates \$280,000 per month. Leadville has produced some \$7,577,000 in gold, and \$70,000,000 in silver and lead, up to the present time, while the incorporated mining companies of that city have paid stockholders in dividends within the past four years nearly \$10,000,000. John Hemlock and David Gibney have made a new strike near the Idols mine, near Peck Gulch, in York Mining District, which caused quite a ripple of excitement. The surface quartz contains chlorides, which as any taken out of the London and Barnacle mines, east of the new location.

Miners' Union Plente.

The Miners' Union will hold the boss picnic of the year at Steamboat Springs on Sunday, September 9th. The committee who went down last Sunday made the preliminary arrangements for holding the picnic there and to-day are selecting the prizes for the occasion. There will be games of all descriptions and a military tournament for which teams from all over the state will compete. Swings will be put up and every convenience made for those who attend. A complete programme of the games and a list of prizes will be published in a few days.

Warranted to Cure.

A. H. Barnes of the Golden Eagle Hotel, in this place, recommends the following as an infallible cure which can be had at all the drug stores, for a very prevalent disease: Take Dr. J. C. Williams' "Garnett's Balm." It cures hemorrhoids or bloody flux, he says. I have used it and persuaded others to use it, for over 30 years, and have never known it to fail in any case; and will guarantee to pay for any bottle taken as directed, that fails to give satisfaction.

Out of Luck.

John Robinson's circus seems to be having an extended run of bad luck. After leaving Reno where one of the employees lost a finger, another at Colfax had a finger crushed by the cars, a cage containing hyenas ran down the hill too rapidly and broke the leg of a horse, a boiler had a jaw broken by the kick of a horse in one of the stables, and the sea lion gave up the ghost at Nevada City.

A Fatal Accident.

Andy Donohue, a miner well known on the Pacific coast, was killed last Thursday about four miles from Bodie while riding on a load of copper bullion. The wagon turned over, crushing him to death.

PERSONALS

Judge M. A. Murphy and family were passengers for the Bay this morning.

General R. M. Clarke was in Reno yesterday visiting Judge King and wife.

C. B. Lyman, the Superintendent of the Mexican mill, at Empire, went below to-day.

P. B. Bronson and wife from Janesville, Lassen county, Cal., were at the Palace Hotel in Reno last evening.

Mrs. William Mooney and daughter of Virginia City, who have been at the Golden Eagle Hotel for a few days, left for home to-day.

Alvaro Evans, R. H. Kinney, W. R. Chamberlain and wife, Mrs. W. R. Jenney, and several others, left for San Francisco this morning.

W. H. Kirk, Assistant General Freight and Passenger Agent of the Chicago, Burlington and Quincy Railway Company, passed west this morning.

Senator H. G. Parker and his son, Clarence, returned this morning from Soda Springs where they captured four fine deer and had an enjoyable time.

George Richards, deputy State Treasurer and Eugene Pierce, Wells Fargo's agent at Carson, two young Sir Knights, went below on this morning's express.

David Johnston and wife of Susanville arrived per last evening's stage, on their way to visit a daughter, Mrs. Charley Moore, who has recently lost two of her children.

Sheriff J. F. Emmitt and family, and County Clerk R. S. Osburn and family, returned last evening from a pleasure trip to the mountains, and report a very enjoyable time.

The resignation of J. R. King, Master of Transportation of the V. & T., took effect last Thursday. Alex. Ardery, his successor, still performs the duties of Superintendent of the company's telegraph lines.

A Destructive Fire at Ward.

A Eureka dispatch says: A fire broke out in Sam Roach's blacksmith shop at Ward, White Pine county on the night of the 14th instant, and destroyed Wear's boarding-house, the school-house, and Jake Henderson's barn. It then crossed the street and laid in ashes Thomas O'Neil's livery stable, the City Hall, F. W. Clute & Co's store, Frank Weise's saloon and three other houses. The total loss is estimated at \$10,000. The only insurance is on Clute's store. Gilmer, Salisbury & Co. lose four tons of barley and some vehicles.

Will Make Some Man a Good Wife.

A young lady of Grass Valley, California, has just completed a piece of patchwork which is really beautiful. It is a silk bed-quilt, containing 3,200 separate pieces, in elegant designs, and is a great credit to the young lady who did the tedious work, she having labored faithfully on the quilt for four months. She will enter the quilt for a premium at the coming fair, and afterward it will be raffled off. It is cheering to know that there are yet girls in the land who do such things.

A Tough Catfish.

This morning's Carson Appeal says: Yesterday afternoon Mr. Edgecomb, the livery stable man, took up a plank to repair the flooring, and found a two-pound catfish alive in a pool of water not over three inches deep. He hid it in a horse trough last February, when it escaped, and has since lived in the pool of water formed from the overflow of the trough.

The Eureka Embroglio.

It is learned that a considerable effort will doubtless be made to implicate Assessor Wallace, of Eureka county, in some act or other of impropriety in forcing the resignation of Commissioner Proffert. Wallace is a Republican, and thus far is not known to have been guilty of any malfeasance in office.

Are Taking in the Conclave.

The transient visitors at Lake Tahoe, who were for a month or two very numerous, says the Carson Index, have rapidly decreased in view of the Conclave at San Francisco. Within the last three days the Tallao Hotel, which was overrun with guests, lost all of them but about 15. The lake is therefore comparatively deserted.

Stopped Over.

James Templar of Long Valley met in Reno yesterday morning a brother, a Knight Templar from Omaha, who, with his wife, are on their way to the Conclave. They stopped off for a brief visit to Long Valley, to a sister, Mrs. Albert Ross, and will take the train again to-morrow or next day.

A Good Stock Country.

The Oregon Short Line is now operating a region capable of supporting 5,000,000 cattle and 10,000,000 sheep, which, when it shall be fully occupied, can export yearly 800,000 cattle, 1,500,000 sheep and 10,000,000 pounds of wool.

Funeral Notice.

Members of Reno Lodge, No. 18, F. and A. M., are hereby notified to meet at Masonic Hall to-morrow at 1:30 o'clock P. M., to attend the funeral of Brother O. W. Ward.

J. J. WICKRELL, W. M.

A SUCCESSFUL BEGINNING.

The Triennial Conclave Exercises Open Well.

The opening ball on Thursday night was a success. The immense pavilion was transformed into a handsome ball-room, the floor being stretched with canvas, the ceilings decorated with banners and flags, and the whole arranged in the form of a triple dome, the center piece being a painting representing the Infant Savior. The eastern end was covered by an immense painting, designed and painted for the occasion, representing the taking of Jerusalem by the Knights Templar. At the opposing end was a raised dais, erected for the Grand Master of the Knights Templar of the United States, Benjamin Dean, and his suite. At either side of the ball-room, were tiers of seats arranged for those who chose to be spectators of the scene. Outside of the ball-room gardens, flower-beds and fountains had been improvised, covered by a glass gallery, permitting all present to indulge in a promenade. The telegraph says it is an exaggeration to say that the scene presented is one that would be impressive, even if transplanted to the largest city in the world, inasmuch as it represents a larger space, greater number of people, more wealth, a greater representation of country, and more gaiety with adornment than has ever before been presented in any city in the world. At midnight there are over 7,000 people present, representing 4,000 on the floor of the ball-room and those seated looking on. All Knights with ladies are entitled to free entrance; but notwithstanding this, the receipts are estimated at \$8,000, leaving, in all probability, from \$4,400 to \$5,000 net profit for the Triennial Committee.

His Nervousness Saved Him.

When the Sierra Valley and Truckee stage was stopped by highwaymen Monday, says the Nevada Transcript, one of the men aboard got so frightened that all color fled from his face. As the robber with the pistol looked into the vehicle and told the passengers to hand over their valuables, his eyes fell on the pallid physiognomy of the scared fellow, and he remarked sympathetically: "We don't want anything from you, stranger. We never rob sick folks."

A Rapidly Developing Trotter.

The new Sacramento horse, "Frank," which many of the horsemen think is going to be the phenomenal trotter of the State, was entered for a race in the 2:40 class at the Bay District Association races on Wednesday. He won in three straight heats. Time 2:21, 2:22 and 2:20. A few days ago \$8,000 was offered for the horse. His owner, Horace Eldred, of Sacramento paid \$4000 for him a few weeks ago.

Killed by an Engine.

(Special to the GAZETTE.)

TRUCKEE, August 18.

T. J. Teddy, a watchman at Loukey & Smith's factory, at Camp 16, just above Boca, was struck by C. P. engine No. 24 at 8 o'clock this morning. He was brought here, and died at 1 o'clock to-day. Deceased leaves a wife and child in Gold Hill.

Feather Weights.

The exceedingly small, almost diminutive size of the members of the "Atlantic Club" of Knights Templar that passed here this morning, was particularly noticeable; there was not a dozen men on the train that would weigh over 140 pounds and a large majority were a long way past boyhood.

Over a Mile of Tunnel.

The big tunnel at the Ontario mine, Utah, will soon be completed. It was commenced in 1881, but the progress for the first year was very slow. Its length is 5,742 feet, nearly all the way through hard rock. The completion of this tunnel is expected to add considerably to the life of the Ontario mine.

Annoying Suspense.

Some curious stories are told of the unfinished messages as they read when the striking operators left their seats. One in New York read: "Aunt has just died. In her will you are left." And here the dazed relative had to stay until the manager took the key and finished the sentence.

More Leprosy.

Dr. F. R. Waggoner discovered a Chinaman with a well advanced case of leprosy at the Lake House this morning. The heathen has been employed there for several months. The doctor informed Mr. Lake of his discovery and he will no doubt turn him out.
